

# BONNETTS

Energy Corp.

Delivery. Well Ahead.™

Delivery. Well Ahead.™

## Corporate Overview

Since 1972, Bonnetts has been a trusted name in downhole operations. We combine state-of-the-art technology with some of the most skilled & knowledgeable operators in the business to deliver top results for our clients & stakeholders. Through our years of experience, Bonnetts & our divisions have become recognized leaders in our core service areas, including wireline, pumping & swabbing. Our methods have been field-proven for clients operating throughout Western Canada & offer turnkey solutions backed by an ironclad commitment to safety & service.

## Health, Safety & Environment

Health, Safety & Environment (HSE) is paramount at Bonnetts Energy Corp. We are committed to the safety of employees, customers & the public within the communities where we live & work. We have incorporated a web based HSE Management system into our daily lives. It enables us to:

- ▮ better train & track all employee job specific requirements
- ▮ capture hazard identifications, incident investigations & reporting on them
- ▮ attain a WCB experience rating discount
- ▮ continuously exceed industry averages for our indicators (TRIF, LTIR)

We believe the keys to success in achieving our goal of “zero workplace injuries” lies in our continued commitment to provide our people with the necessary resources & information to make good decisions, & by offering continuous feedback, recognition & realignment.

Bonnetts Energy Corp. is a member of ISNetwork, Complyworks & PICS.

## Our Divisions

Each division of Bonnetts Energy Corp. has enjoyed significant growth over the years. Although we are continually adapting and improving our service offerings to meet our customers’ evolving needs, one thing that hasn’t changed is our commitment to delivering customer-centered service that is first in its field.

## Service Divisions

Whether you're dealing with E-line, Slickline, Swabbing, Pumping, Offset Frac Monitoring or Regulatory Services, we're committed to doing things better. Our dedication to expertise, efficiency and safety means that your project is completed safely, on-time, and accurately.

### **BONNETTS** Well-Intel

Providing the surface data you need from offset frac monitoring to regulatory testing.

### **REDNECKZ** Wireline

Offering slickline services including high pressure, critical sour, pressure control, fishing and accurate and timely downhole data.

### **BOREAL** Pumping

From fluid pumping to nitrogen services, we've got you covered with a diverse group of pumping and pumping stimulation services.

### **SILVERLINE** Swabbing

Decades of knowledge paired with the latest technology makes our team the top choice for removing liquids from your wellbore.

### **BONNETTS** Wireline

Offering slickline services including high pressure, critical sour, pressure control, fishing and accurate and timely downhole data.

### **BOREAL** E-line

Cased hole e-line solutions for your unconventional operation, including logging, perforating, pump down, and abandonment services.

## Our Culture

### Universal Values

Our culture is driven by the rewards of honesty, integrity, trust and high achievement with respect for each other, our assets and our environment. These values will not be compromised for profit.

Understanding and acceptance may occur for individuals who deviate from these beliefs, provided that they realign themselves to the values of the company.

### Our Beliefs:

We believe that fundamentally, everyone comes to work to do a good job. We believe that equally well informed, rational individuals rarely disagree.

We believe in ownership of one's job. Therefore, we believe those affected by a decision should have informed input into that decision.

We believe it is the responsibility of leaders to ensure that people have the necessary resources at their disposal, to become well informed to make good decisions. It is the responsibility of leaders to be mentors by offering continuous feedback, recognition and realignment.

We believe the success of our business depends on win/win partnerships with our customers, our employees and our suppliers. Should a relationship become strained or need to be severed, our partners must be aware of the situation. It should not come as a surprise.

### Our Quest

To be the best that we can be, as individuals and as a company.

To be the supplier of choice by offering the best quality and customer service, without compromise to our values or beliefs.

To be an employer of choice by providing a safe, harmonious, stimulating, team driven, accountable, entrepreneurial workplace where people have an opportunity to grow.

To exceed our customer's reasonable expectations.

To be a safe, profitable, innovative and continually improving organization.
